PRIMARY EXAMINER Art Unit 2137 Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments are not persuasive. In reference to the rejection of Claims 1-3, 5, 7-13, and 15-22 under 35 U.S.C. 102(b), and specifically in reference to independent Claim 1, Applicant argues that the domain defined in Levergood is not a URL or an address portion of a URL. Applicant further states that the domain is defined as "a collection of controlled files... within one or more servers". The Examiner notes that if the domain includes a collection of files within a server, then the domain must include an identification and/or address for these files. Therefore, the Examiner believes that the domain can indeed include an address portion of a URL. Applicant's arguments regarding dependent claims are similarly unpersuasive.
